Unique, Effective Products

KN95, 3M 1860 Clones or other N95 Masks

FDA-APPROVED, Food-Safe, Non Irritating Disinfectant

ASK ABOUT ADDITIONAL DISCOUNTS &/or FREE SHIPPING OPTIONS FOR LARGER PURCHASE QUANTITIES OF THESE SPECIALS!

While the Euro & China mask specifications meet or exceed US N95 standards, some mask users insist upon N95 certified masks, or masks tested to confirm that they meet N95 standards, Thus, we have sourced such masks, or clones, at affordable prices...both 3M 1860 clones that are virtually impossible to tell from the 1860s, and other masks that meet or exceed N95 standards, at hard-to-beat prices.

We laughed at the thought of a sanitizer that could kill the Coronavirus, w/o being toxic to people. But, this product actually meets that description exactly...being based on the only active sanitizing ingredient that is rated as food-safe by the FDA! In fact, it can be used to sanitize fruits, vegetables or fish...without rinsing; and is used for sanitizing wounds. Can be wiped or sprayed on surfaces, or the skin, to kill 99.99% of most bacteria & viruses within seconds of contact, w/o drying the skin like alcohol...and this product's cost is also just a fraction of the price of alcohol based products.

- 5-Ply KN95 Masks (N99 Effectiveness) **\$0.69/pc** (MOQ 1.4K)
- Makrite NIOSH N95 Masks (MOQ 10 cartons**) **\$1.89/pc**
- 1860 Clones (MOQ 10 cartons**) **\$1.89/pc**

Shipping INCL for 100K MOQ boxes @ \$0.99/pc**

Winter Season Masks! Patriotic & Lighted Masks;
 Self-Sanitizing Silver-Ion (& Reusable) Masks!

Unique & Hard-to-Find Masks that meet your needs or fancy: Holliday-theme mask in 3-ply "flat" style, or reusable cloth (incl replaceable filters); Patriotic "flag" masks in reusable cloth, w/ or w/o nifty LED lighting; Amazing, lab-tested self-sanitizing silver-ion masks reusable for 3-7 days (non-woven mesh) or up to 50 times (cloth). Do not confuse with ineffective "copper-infused" masks that are being marketed.

- Xmas Masks, Disposable/Reusable: ~~\$0.50~~/~~\$3.99~~
 - Patriotic, Cloth/Cloth w/ LED Lighting: ~~\$3.99~~/~~\$9.99~~
 - Silver-Ion Masks, non-woven/cloth: ~~\$1.20~~/~~\$4.99~~
- (MOQ: NW-Mesh 2,000 - 2,500; Cloth / LED: 100)

Hand-Sprayer or Whole-Room Disinfectant Fogger
 Uses/Makes Totally NON-TOXIC Disinfectant!

Unique products that make their own effective, but non-toxic, non-irritating sanitizer for just pennies...from just plain salt and water! The spray-bottle unit includes its USB power cord for recharging the built-in battery. The larger unit makes 3 liters of sanitizer (the only type approved for whole-room atomizing) and then mists the whole room (up to 10,000 sq ft). Includes a built-in shut-off timer.

- Sprayer Version w/ USB cord: ~~\$39.99~~ **\$34.90**
 - Whole Room Sanitizing Unit, complete: ~~\$99.99~~ **\$79.90**
- (MOQ: Sprayer 24; Whole-Room 10)

MASK & RESPIRATOR PRODUCTS (pg1)

Consumer/Medical Flat Masks

Non-woven fabric exteriors with "melt-blown" filter interiors that are special static-charged to attract & capture tiny particles. 3-ply disposable, flat, civilian masks or 5-ply, Level IIIIR, medical certification version. Ear loops are standard. Inquire about head or tie loops or sterile masks avail for an extra chg.

Consumer \$0.25 ea.

Level IIIIR Medical \$0.35 ea.

Sterile Masks: Add \$0.20 ea.
(Approx 40 boxes x 50pc per carton)

Child/Holiday/Pattern Masks

3-5 layer consumer masks available with holiday or other patterns. Customer patterns available. Child's masks a sized for smaller faces. As with our other disposable masks, each box includes some washable adjusters that ease pressure on the ears. Be sure to ask about available pattern options.

Pattern/Child Masks \$0.39 ea.

Custom Pattern +\$0.20 ea.

(20/40 boxes x 50pc per carton)

Folding Respirator Masks

4-5 layer folding respirators with certified as FFP2-3 & KN95-99 which approaches or exceeds N95 filter standards. Special design is easier to fit than cup masks. Includes active charcoal &/or cotton layer that absorbs moisture &/or odors. Available without or with a breath valve. Some can be reused 20 times.

FFP-2/KN95 \$0.79 ea.

FFP-3/KN99 \$1.59 ea.

FFP-3/KN99 Reusable \$1.89 ea.

Breath Valves, \$0.50 extra.

(Approx 30 boxes x 20pc per carton)

Washable & Reusable Masks

Washable cotton masks that all include a pocket for a certified 95% disposable filter, adjustable ear loops & nose wire for fit. Inquire about multiple patterns available. Each mask comes with 5 filters & washable mask adjusters to ease pressure on ears. Self-sanitizing Silver Ion masks can be reused 50X.

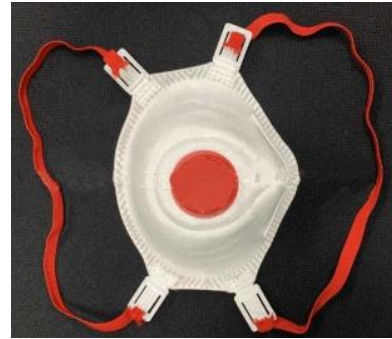

Washable Cloth Mask \$3.49 ea.

Replacement Filters \$0.22 ea.

Reuse 50x Silver Ion Mask \$3.99

(Approx 5 boxes of 100 per carton)

"Cup" Respirator Masks w/ valves

5-ply masks certified FFP-2 or FFP-3 (KN95/99) that meet or exceed N95 standards. Come with dual head loops & nose cushions/wires adjustable for best fit. Supplied with breath valves for comfort. *Ask about our chemical-free mask disinfection units that facilitate reuse without a large degradation of filtration efficiency.*

FFP-2/KN95 \$1.99 ea.

FFP-3/KN99 \$2.49 ea.

(Approx 6-10 boxes of 20 per carton)

N95 "Cup" Masks & Clones

Full NIOSH N95 cup masks or State-of-the Art clones that meet at least FFP2/N95 performance std (though not NIOSH-certified) and at a fraction of the price w/o the current scarcity. Plus, the clones include a moisture-absorbing layer, not present in 1860's & a nose cushion for greater comfort!

Blue N95 Clones \$1.59 ea.

(Approx 6 boxes of 20 per carton)

Full NIOSH N95 (3M 1860's) \$2.89

Special Price (ltd availability) \$1.89

(MOQ: 100 cartons of 120 pc ea)

TESTS, TESTING EQUIPMENT & SUPPLIES

AS WITH ALL PRODUCTS CERTIFIED BY THE FDA, SHIPMENTS MUST BE TO THE END-USING INSTITUTION

Swabs, Vials/Reagent kits

These swabs are not "long Q-tips". The tips & shafts are non-absorbent & the shaft has a breakaway feature to facilitate maximum extraction of sample, by allowing to[to remain within the test vial. Buy swabs only; swab & 5-10ml vial; or swab, vial & transport medium requiring no refrigeration during transport to the lab. Inquire if you need PCR sampling prep kits. Both std & fast types avail.

Sterile Swabs \$0.24 (MOQ: 2.4K)

5-10ml Vials \$0.29 (MOQ: 2.4K)

Saliva Collectors \$0.39

Swabs/Vials \$0.49 (MOQ: 2.4K)

Swab/Vial/medium \$1.25 (MOQ 735)

Fast Antibody Test

Complete mini-test kit for detecting Covid IgG/IgM antibodies, suggesting the likelihood of a current/recent infection. While not sold for home use, technical skill is not required for use. Needs just a drop of blood and gives results in about 15 minutes. Complete kit with all pieces necessary for the test. No additional supplies, or expensive lab analytical equipment needed. Latest certified Euro/CE version produces less false pos/neg results vs early versions. Lower price too! 1,250 tests per carton.

\$3.90 ea.

(MOQ: 10,000 pc)

Fast Antigen & DUAL Tests

Complete sampling & test kits for detecting actual coronavirus antigens indicating presence of live virus, giving results within 15 minutes. No tech lab skills required. Version one is DUAL antigen & antibody test, using saliva sample & a drop of blood. Better design than the Abbott test. Version 2 uses a throat swab & is read using affordable reader, reducing subjective interpretive errors. **US-EUA obtained** Sensitivity-specificity, + 97%.

Type 1: \$8.90 (MOQ 10,000)

Type 2: \$5.90 (MOQ 10,000)

Type 2 Reader: \$890 (MOQ 10)

Thermal Recycler / RT-PCR Analyzer

Certified thermal recyclers & RT-PCR analyzers available at a fraction of the customary cost. Compare to US-made equipment 2-3X the below prices. 96 wells for doing many tests per hour. Please request brochures with detailed specification as much information is available than can be printed here. Available for immediate shipment via express air freight. (MOQ 2pc)

96-well Thermal Recycler: \$3,990

96-well RT-PCR Analyzer \$19,990

Auto-pipette & tips

Convenient lab instrument for accurate dispensing of samples & reagents into test equipment for coronavirus analysis. Tips are removable and autoclavable, but inexpensive, so there is no reason not to have many on hand, saving time that would otherwise be lost while used tips are sanitized.

Auto-pipette/1 tip: \$14.90 (MOQ 50)

Replacement Tips \$0.15 ea (MOQ 4800)

Pulse Oximeter, Thermometers

Best prices on bulk purchases of hand-held or wall-mount thermometers & fingertip oximeters. Please ask for full specs of the various models available & in-stock in our Asian warehouse, ready for prompt express or regular air freight shipment direct to your premises. All models are FDA &/or Euro-CE certified.

Hand-Held Thermometer \$12.90

Wall-Mount Thermometer \$34.90

Bluetooth Blood Oximeter \$14.90

(Wall-Mount Therm. MOQ=12pc, other MOQ's are 100pc)

ORDERING NOTES, POLICIES & STANDARD VOLUME PRICE DISCOUNTS*

PRICING & DISCOUNT POLICY: In the PPE market, much “dirty business” & wild inflation of prices has been spawned, which takes advantage of desperate buyers. In response to this ugly situation, we have a goal of beating the pricing that others are charging and offering a uniform pricing policy that does not pit one buyer against another, in “bidding wars” when they are sourcing limited supplies. Our price targets are at least 20% below the lowest price others charge for substantially the same product. In fact, we are so focused on keeping prices affordable, that we will not offer a product if we can't beat its average low market price

To prevent price-gouging by resellers, we offer products primarily to end-users to whom the products are shipped, directly from our sources. To be in compliance with US law, we consider ourselves to be importing facilitators/brokers, not wholesalers. By specifically not becoming a part of the chain of title, and not taking physical possession of the products, we are permitted to operate with having to comply with the complicated regulations that would, otherwise, require us to be an FDA-registered reseller of medical products that FDA controls. This, of course, does not prohibit us from the general sales of products that are not labeled as FDA compliant.

We also pledge not to raise our prices, simply because the average market price has gone up, if our own cost has remained level. As part of this uniform pricing policy, we offer discounts that are primarily based on order size, though we also try to accommodate discount for first-responders, non-profits & other institutions; taking recurring sales into account in regard to volume pricing. **We also gladly share a % of the price with cooperating facilitators & referrers: 5% standard; 4% w/ 1st level discount; 3% for larger discounts.**

Glove Discounts:*

Level 1: 1-3 Full 20' Containers: 5% Fee to Referrers: 4%
Level 2: 4+ Full 40' Containers: 10% Fee to Referrers: 3%

Mask, Gown & Face Shield Discounts:*

Level 1: 1-3 Full 20' Containers: 15% Fee to Referrers: 4%
Level 2: 4+ Full 40' Containers: 25% Fee to Referrers: 3%

****Discounts apply to product prices only, not to service, shipping or other order costs. Inquire about discounts on other products.****

RECURRING ORDER DISCOUNT POLICY & AVAILABILITY OF PRICE LOCKS:

Though our goal is to treat recurring orders as one large order, in regard to determining available discounts, each monthly quotation of the longer recurring order is treated as if it is a stand-alone order. This helps to “hold the line” on the costs, payments, deposits, and so on due & payable each month. However, you are advised, however, that for the most in-demand products, such as gloves, the manufacturer's willingness to lock in prices is likely to depend the buyer's willingness to pay up-front deposits on future monthly production and shipments. In the case of other products, with lower demand or larger manufacturing production capacity, price locks are less of an issue.

MINIMUM ORDER QUANTITY:

Per manufacturer requirements, though pricing is often shown as “per box”, orders must be made for full cartons. In that regard, size/color or other specifications must also be for full cartons. The number of pieces/box, number of boxes/carton, are detailed on the price list. To minimize the chance or shipping damage, from shifting cargo, orders to be shipped by sea should be for full 20' or 40' containers.

Please note that this is an extremely volatile market: Our goal is to maintain consistency in pricing, to the extent possible, as well as to offer the best prices on the market. To accomplish this, we strive to deal directly with manufacturers, to have multiple sources for each product and to constantly track which manufacturer has the best pricing at any one time. For this reason, we inspect for, and assure, compliance with particular certifications desired by the buyer...but we reserve the right to switch actual branding when that enables us to maintain the most consistent pricing. Ultimately, however, prices are subject to change w/o notice, as manufacturers have no control over their materials costs.

NOTES REGARDING SHIPPING & SERVICE/SHIPPING COSTS:

We have no control over 3rd-party service costs (ie: shipping, handling, warehousing etc) except to the extent that we often have multiple service providers and always do our best to obtain these services at the best current world pricing. Please note that orders are always insured for full value of product & costs for the entire period of shipment.

Average shipping transit times (“door to door”) are: Express (ie: UPS, DHL) 3-6 days; Regular Air Freight, 6-11 days; “Sea-Land” shipping, 11-28 days. Please note that transit times are “door-to-door”, but do not include pre-shipping lead times/delays such as result from the time needed for order production, the 5-day lead time before product compliance & shipping verification inspections.

To ensure a constant stock of products, but control shipping cost, we will gladly break up orders into multiple shipments, to be shipped via different means. In that regard, we suggest an express shipping limit of 20 cartons & regular air-freight limit of 50-500 cartons; with the balance “sea-land” shipped. *[For example: an order for a 20' container component, to be “sea-land” shipped; could include an additional 200 cartons shipped via regular air freight; and 20 cartons that are express-shipped.]*

Revised: 1-6-2021
