

Silver-containing, Self-sanitizing Masks!

RE-USEABLE AT LEAST 50 TIMES!

ONLY \$3.89 IN QUANTITY

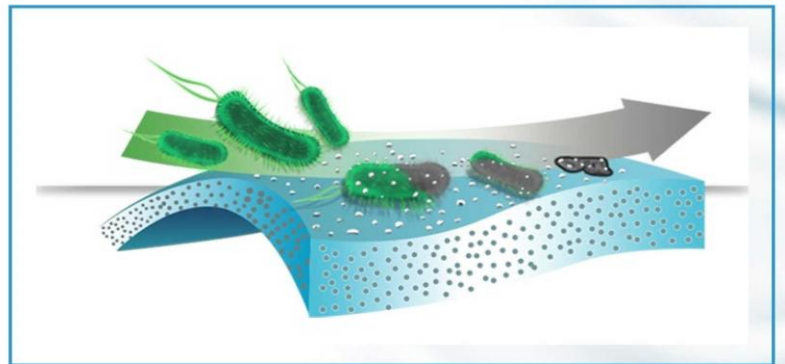

Comfortable, Multi-layer Cloth Filter Fabric with Adjustable Ear Loops

Scientifically Proven to Remove & Destroy
Over 99% of Bacteria & Other Organisms
that directly contact this special mask fabric
*(0.1 to 4 hours time)**

SILVER ION ANTIBACTERIAL MECHANISM

SILVER ION CONTROLS THE TRIPLE MECHANISM OF OXYGEN TRANSFER ENZYME, WEAKENS SULFUR-CONTAINING PROTEINS AND LOCKS THE CELL MEMBRANE, KILLING THEM AND INHIBITING THEIR CONTINUED GROWTH, THEREBY QUICKLY CONTROLLING THE BACTERIA ON THE SURFACE OF THE FABRIC. BACTERIA CANNOT BREAK THROUGH THE TRIPLE MECHANISM OF SILVER IONS.

Unlike Bacteria, viruses are not alive in the traditional sense: They don't "eat" or "respire" like other cells. All they do is replicate using the mechanisms within other cells, which damages or kills those cells. But, they have a weakness: They consist only of an outer shell or membrane, containing RNA or DNA. And, they cannot survive if the membrane is broken, or the RNA/DNA is fragmented: And, this is exactly what contact with copper ions or silver ions & moisture accomplish in as quickly as a few minutes in the case of some viruses. Even more noteworthy is that these properties do not ever wear off or wash out!

DO NOT confuse with other products that mention "the benefits of copper", but contain too little copper to justify specific beneficial claims for their product: To be effective, a minimum % of metal ions must be evenly distributed in the fabric, as is the case in our laboratory-certified products.
