SPONGY LAYER

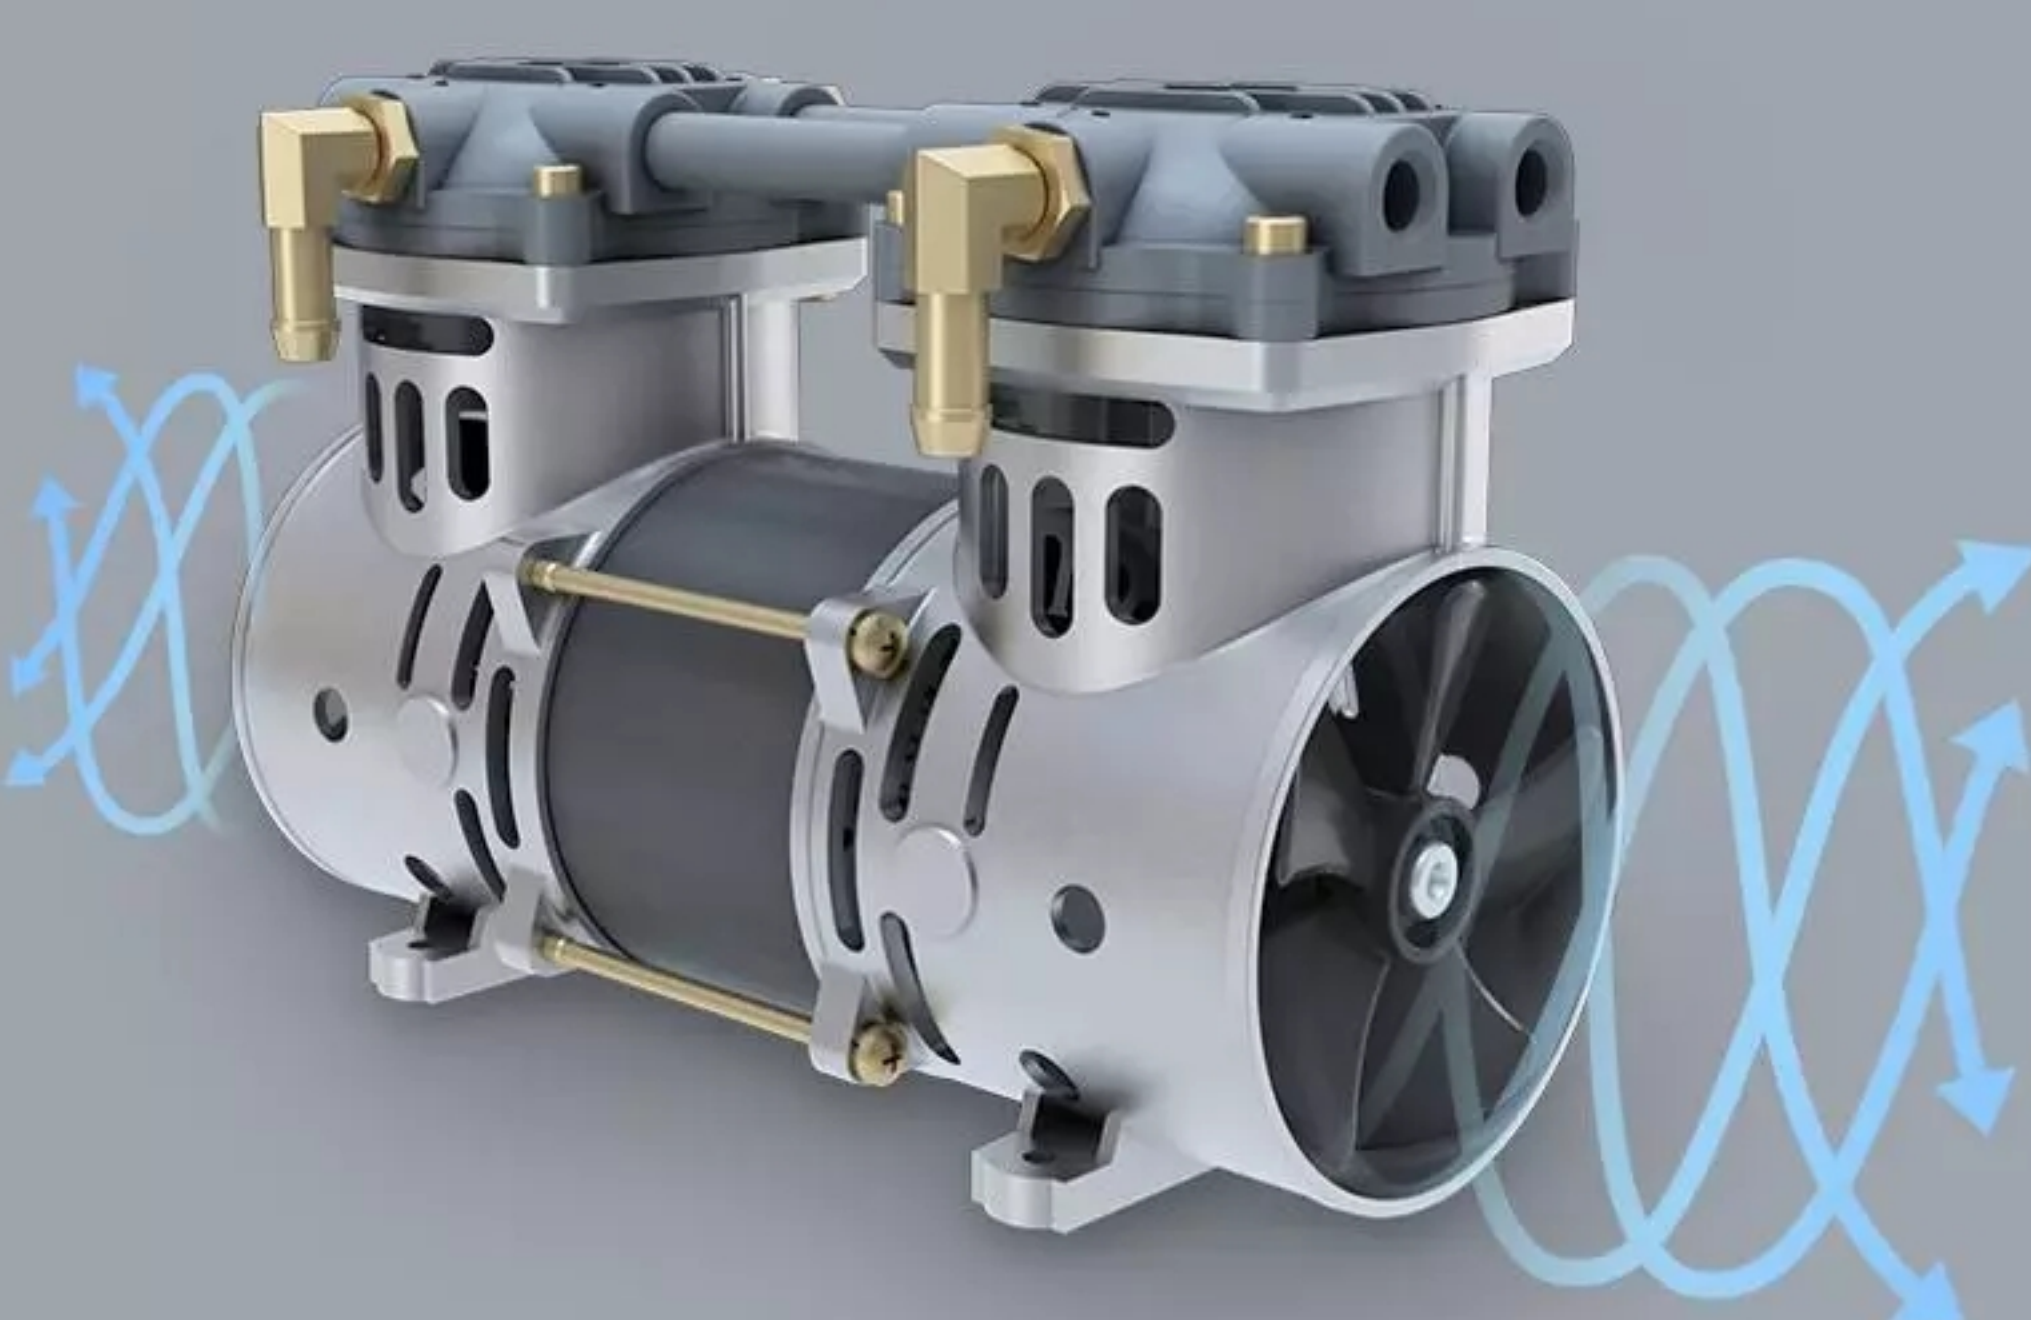

02

US ORIGINAL
IMPORTED
MOLECULAR SIEVE

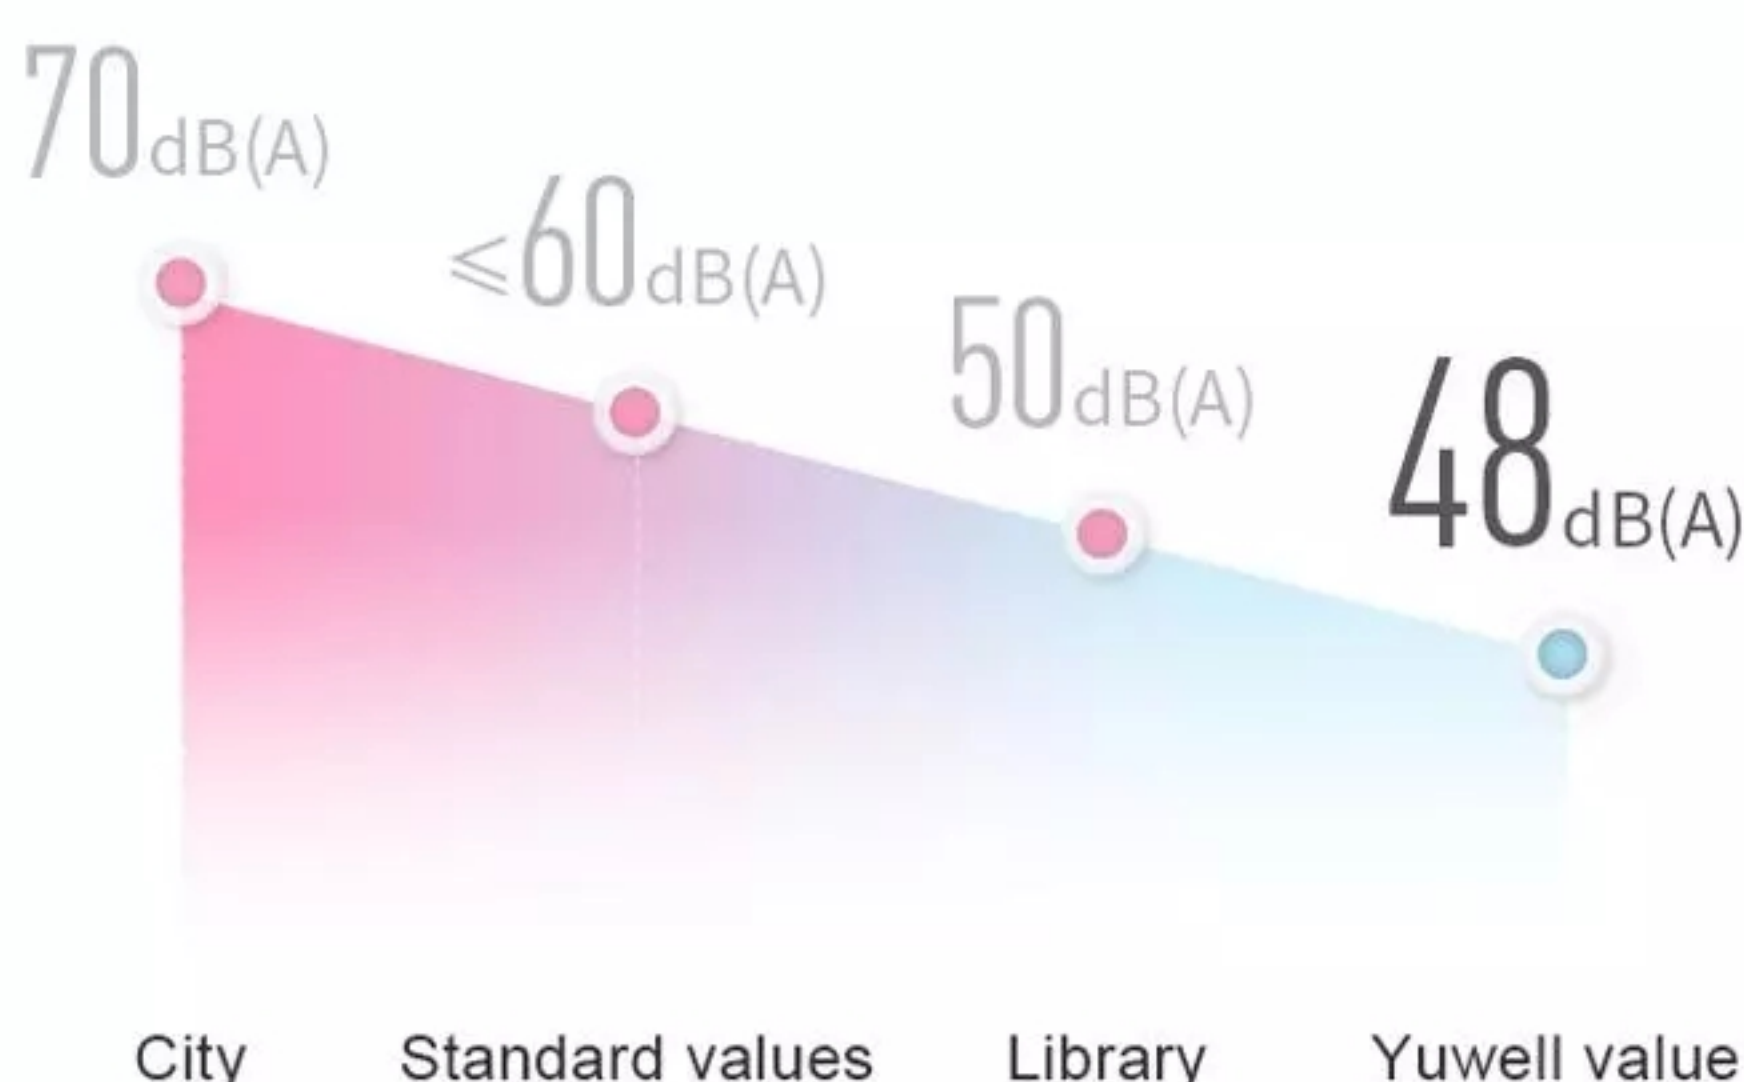

EPL COMPRESSOR CONTINUE TO PROVIDE YOU WITH GREAT MOTIVATION

Strong wind pressure makes the heat dissipation performance of the machine significantly improved, Effectively extend the service life of oxygen generator.

LOWER NOISE AND MORE COMFORTABLE

Admission air silencer, exhaust silencer, Stereo cycle noise reduction technology to give you a meditation world

PROFESSIONAL ATOMIZATION CAN MATCH VENTILATOR

One machine dual use Oxygen production atomization switch at will

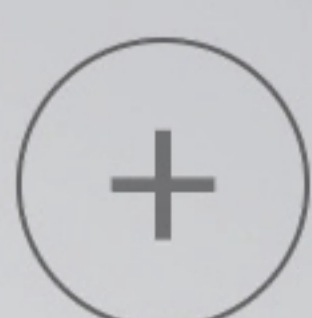

Oxygen atomization is used at the same time Constant oxygen concentration

Oxygen can be inhaled by two persons at the same time Constant oxygen concentration

*Buy T-branch pipe separately

REMOTE CONTROL FUNCTION IS MORE CONVENIENT

The wireless remote control can be adjusted as it pleases

Time to add

Time to reduce

Switch

LIGHT AND PORTABLE EASY TO MOVE

NEW 5L OXYGEN GENERATOR, WEIGHT IS CHANGED.

Only **15.5**KG

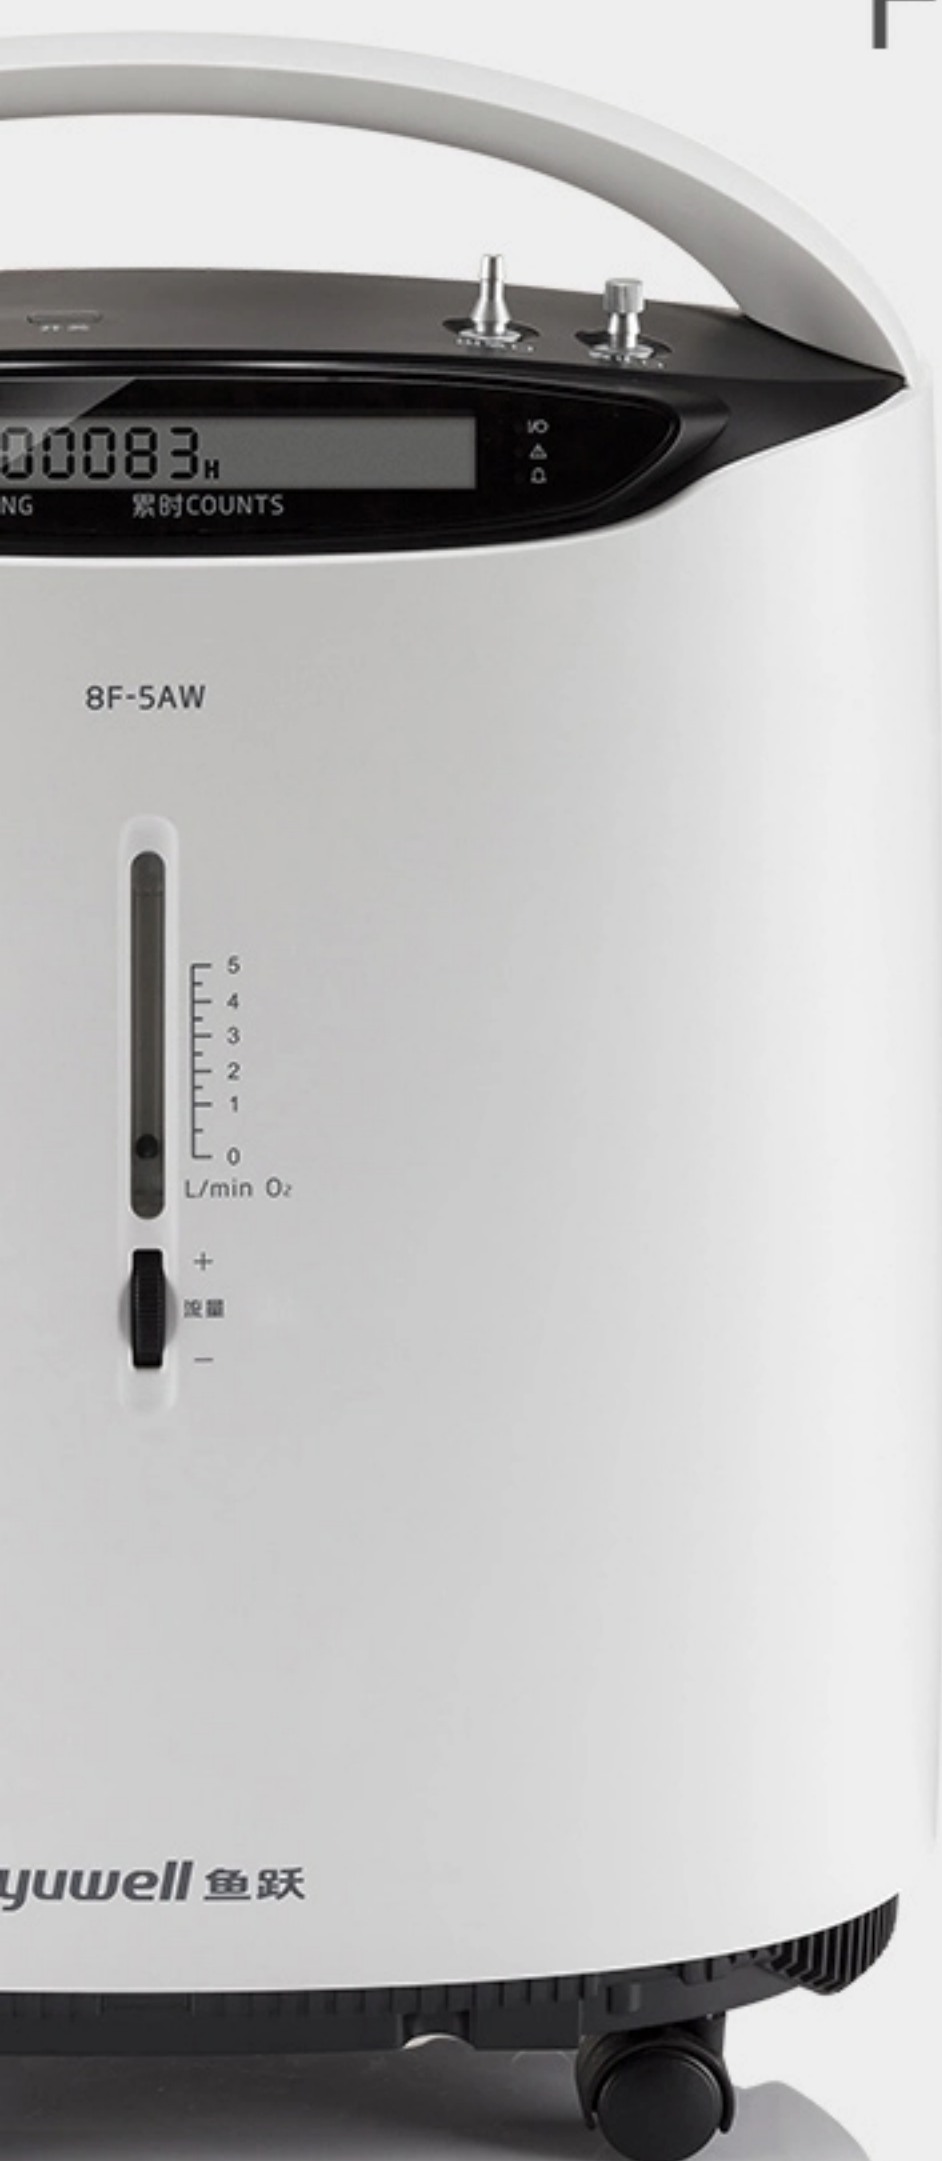

REMOVABLE FILTER FELT

ONE-KEY START MORE CONVENIENT TO USE

FAULT DETECTION FUNCTION

- Current overload or loose connection

⊖ shut down

- Compressor high temperature

⊖ shut down

- Pressure, cycle fault shut down

🔔 alarm ⊖ shut down

- Low oxygen concentration

🔔 alarm

Product Specification

Product model: 8F-5AW

Power:500VA

The oxygen flow rate:1-5L/min

After-sales:The machine is guaranteed
for 1 year,the compressor
for 3 years

Main raw material:UOP molecular sieve

Noise:Standard values is 60dB(A),Yuwell
measurement value is 48dB(A)

Net weight:15.5KG

Oxygen

concentration:0.5-5L/min,93%±3%

Dimensions:39*24.5*50cm

Compressor:Epl

Matters need attention

Special warning

To prevent power failure or possible failure of the oxygen generator,Those in urgent need of oxygen and those in critical condition must be equipped with alternative feeding devices(such as:Oxygen cylinder, oxygen bag ,etc.)

The equipment is suitable for oxygen supplement, not as life support and life extension supplies.
