It is suitable for clinics and hospital

Home health care
Plug into wall outlet AC110V/220V
Voltage (with AC power cord)

Specifications Of 10L Home Oxygen Concentrator :

Model	OLV-10
Flow Rate	1-10 L/min
Purity Oxygen	$\geq 90\% \pm 3\%$ (1LPM)
Power Consumption	450W
Output Pressure	40Kpa-80Kpa
Sound Level	less than 40db
Net Weight	24kg
Guarantee	12 months
Dimension	372*340*612
Product Application	Medical Care

10L Health Medical Oxygen Concentrator Product Features:

1:10 L Home Oxygen Concentrator Adopt PSA Technology

2.Large LCD display of the total working hours and the present working time Timing Function for working hour's control (10 MIN-5 HOURS)

3. Resettable Circuit Breaker Five-stage filters (HEPA filter and bacteria filter) keep away from most of impurity, bacteria and PM2.5
4. Intelligent self diagnosis system: Malfunction information display on LCD Intelligent Cooling Control System ensures 8000 hours continuously working at stable and high purity of 93% in real time
5. Super mute oil-free compressor ensures 30% longer life span
6. Long service life, suitable for 24 hours operation with non-stop
7. Ultra-quiet, Low dB(A), ≤ 50 dB(A) Warranty: 36 months

10L Health Medical Oxygen Concentrator Product:

OLV

Simultaneous oxygen inhalation for two persons

Professionally Provide Oxygen, Protect Health With Heart

93% high oxygen concentration, stable oxygen output and prevent infection

Even if two people are using the machine at the same time, the high oxygen concentration still continues
